

Introduction to exercises

Exercises

- Schedule
 - Today
 - Globus exercises
 - Globus Security
 - Globus Resource Management
 - Globus File Management
 - Job submission exercises
 - Tomorrow
 - Information Service (Globus MDS) exercises
 - Data management exercises
- Please refer to the 'Tutorial Handout' document

Testbed for exercises

- We will use the DataGrid Gridis testbed
- From your desktop, login on a UI of the Gridis testbed, where an account has been created for you:
 - `ssh -X username@ced-ui0.datagrid.cnr.it`
 - Username: bariveci / ciprian / cozzini / kaucic / leto / marassi / nobile / onime / paderno / pedirota / rinella / sima / talpo / tedeschi / terpin / visintin / zoicas
 - Initial password for all these 17 accounts: *EgridTrieste*
- Some material for the job submission exercises is provided
 - Once connected to the UI machine, download and “install” this material:
 - `wget -nd \`
`http://www.pd.infn.it/~sgaravat/TutorialTrieste/wms.tar`
 - `tar xvf wms.tar`

Grid pass-phrase

- Your initial Grid password (will be asked when you'll issue *grid-proxy-init*: see Globus exercises) is:
 - *<Your First Name> <Your Family Name>*
 - Type also the 'space' !
 - E.g.:
 - Stefano Cozzini
 - Alvisè Nobile
 - ...
- You will learn how to change this initial password
 - See Globus exercises
