

# Engineering the reactivity of metal catalysts: a model study of methane dehydrogenation on Rh(111)

*Saturday, 15 January 2005 11:40 (0:20)*

## Content

## Summary

**Primary author(s) :** N. BONINI (SISSA & INFN DEMOCRITOS, Trieste, Italy)

**Presenter(s) :** N. BONINI (SISSA & INFN DEMOCRITOS, Trieste, Italy)

**Session Classification :** Engineering the reactivity of metal catalysts: a model study of methane dehydrogenation on Rh(111)
