

# **Toward a theory of the abundance and distribution of species at multiple spatial scales: Part II. Implications for Beta diversity**

*Monday, 16 May 2005 11:45 (0:45)*

## **Content**

## **Summary**

**Primary author(s) :** J. HARTE (Energy & Resources Group, Univ. California at Berkeley, Berkeley, USA)

**Presenter(s) :** J. HARTE (Energy & Resources Group, Univ. California at Berkeley, Berkeley, USA)

**Session Classification :** Toward a theory of the abundance and distribution of species at multiple spatial scales: Part II. Implications for Beta diversity
