Conference on Vortex Rings and Filaments in Classical and Quantum
Systems (6-8 June), followed by: Workshop on New Experimental
Techniques for the Study of Quantum Turbulence (9-10 June) | (smr 1661)

Contribution ID : **17**   Type : **not specified**

Knotted vortex rings from the eikonal equations

Tuesday, 7 June 2005 15:10 (0:35)

Content

Summary

Primary author(s) :   A. WERESZCZYNSKI ((Jagellonian University, Poland))

Presenter(s) :   A. WERESZCZYNSKI ((Jagellonian University, Poland))

Session Classification :   Knotted vortex rings from the eikonal equations
