Conference on Vortex Rings and Filaments in Classical and Quantum Systems (6-8 June), followed by: Workshop on New Experimental Techniques for the Study of Quantum Turbulence (9-10 June) | (smr 1661)

Contribution ID : ${\bf 24}$

Type : not specified

Aeroacoustic aspects of vortex rings and gauge-theoretic aspects of vorticity

Wednesday, 8 June 2005 11:40 (0:35)

Content

Summary

Primary author(s) : T. KAMBE ((University of Tokyo, Japan))

Presenter(s): T. KAMBE ((University of Tokyo, Japan))

Session Classification : Aeroacoustic aspects of vortex rings and gauge-theoretic aspects of vorticity
