Conference on Vortex Rings and Filaments in Classical and Quantum
Systems (6-8 June), followed by: Workshop on New Experimental
Techniques for the Study of Quantum Turbulence (9-10 June) | (smr 1661)

Contribution ID : **25**   Type : **not specified**

Modelling of vortex ring dynamics using the Stokes approximation

Wednesday, 8 June 2005 14:00 (0:35)

Content

Summary

Primary author(s) :   F. KAPLANSKI ((Tallinn University of Technology, Estonia))

Presenter(s) :   F. KAPLANSKI ((Tallinn University of Technology, Estonia))

Session Classification :   Modelling of vortex ring dynamics using the Stokes approximation
