Conference on Vortex Rings and Filaments in Classical and Quantum Systems (6-8 June), followed by: Workshop on New Experimental Techniques for the Study of Quantum Turbulence (9-10 June) | (smr 1661)

Contribution ID: 32 Type: not specified

The application of shadowgraphy to flow visualization in low temperature fluids

Thursday, 9 June 2005 14:00 (0:45)

Content

Summary

Primary author(s): P.G.J. LUCAS ((University of Manchester, UK))

Presenter(s): P.G.J. LUCAS ((University of Manchester, UK))

Session Classification : The application of shadowgraphy to flow visualization in low temperature

fluids
