Conference on Vortex Rings and Filaments in Classical and Quantum Systems (6-8 June), followed by: Workshop on New Experimental Techniques for the Study of Quantum Turbulence (9-10 June) | (smr 1661)

Contribution ID: 38 Type: not specified

Injected ions in superfluid helium as detectors of quantized vortices

Friday, 10 June 2005 10:50 (0:45)

Content

Summary

Primary author(s): A. GOLOV ((University of Manchester, UK))

Presenter(s): A. GOLOV ((University of Manchester, UK))

Session Classification: Injected ions in superfluid helium as detectors of quantized vortices
