

Large amplitude MHD waves in the foreshock: nonlinear evolution and consequences - 2

Wednesday, 14 September 2005 11:30 (1:00)

Content

Summary

Primary author(s) : T. HADA (Kyushu University, Japan)

Presenter(s) : T. HADA (Kyushu University, Japan)

Session Classification : Large amplitude MHD waves in the foreshock: nonlinear evolution and consequences - 2
