

Efficient Noise Estimation from the Imperfect Loschmidt Echo for Random Circuits

Monday, 3 October 2005 17:10 (0:50)

Content

Summary

Primary author(s) : JOSEPH EMERSON (Perimeter Institute for Theoretical Physics, Waterloo, Canada)

Presenter(s) : JOSEPH EMERSON (Perimeter Institute for Theoretical Physics, Waterloo, Canada)

Session Classification : Efficient Noise Estimation from the Imperfect Loschmidt Echo for Random Circuits
