

# Buoyancy-Driven Contemporary Tectonic Stress and Intermediate-Depth Seismicity in Europe

*Friday, 14 October 2005 13:30 (0:45)*

## Content

## Summary

**Primary author(s) :** PROF. A. ISMAIL-ZADEH (International Institute of Earthquake prediction Theory and Mathematical Geophysics, Russian Academy)

**Presenter(s) :** PROF. A. ISMAIL-ZADEH (International Institute of Earthquake prediction Theory and Mathematical Geophysics, Russian Academy)

**Session Classification :** Buoyancy-Driven Contemporary Tectonic Stress and Intermediate-Depth Seismicity in Europe
