

International Symposium on the Jahn-Teller Effects: Novel Aspects in
Orbital Physics and Vibronic Dynamics of Molecules and Crystals | (smr
1768)

Contribution ID : 12

Type : **not specified**

Spin and orbital degeneracy problems in the DFT method. Relation to the Jahn-Teller effect

Tuesday, 29 August 2006 10:10 (0:30)

Content

Summary

Primary author(s) : I. G. KAPLAN (Inst. de Investigaciones en Materiales, UNAM, Mexico)

Presenter(s) : I. G. KAPLAN (Inst. de Investigaciones en Materiales, UNAM, Mexico)

Session Classification : Spin and orbital degeneracy problems in the DFT method. Relation to the Jahn-Teller effect
