

International Symposium on the Jahn-Teller Effects: Novel Aspects in
Orbital Physics and Vibronic Dynamics of Molecules and Crystals | (smr
1768)

Contribution ID : 14

Type : **not specified**

Jahn-Teller-Kondo Behavior from a Three-Terminal Quantum Dot with Triangular Symmetry

Tuesday, 29 August 2006 11:30 (0:30)

Content

Summary

Primary author(s) : R. C. TOONEN (Lab. for Molecular-Scale Eng., Dept. of Electrical & Computer Eng., Univ. of Wisconsin, USA)

Presenter(s) : R. C. TOONEN (Lab. for Molecular-Scale Eng., Dept. of Electrical & Computer Eng., Univ. of Wisconsin, USA)

Session Classification : Jahn-Teller-Kondo Behavior from a Three-Terminal Quantum Dot with Triangular Symmetry
