

International Symposium on the Jahn-Teller Effects: Novel Aspects in
Orbital Physics and Vibronic Dynamics of Molecules and Crystals | (smr
1768)

Contribution ID : 28

Type : not specified

Linear Jahn-Teller effect of an orbital quintet in icosahedral symmetry

Wednesday, 30 August 2006 15:00 (0:30)

Content

Summary

Primary author(s) : N. MANINI (Milano University, Italy)

Presenter(s) : N. MANINI (Milano University, Italy)

Session Classification : Linear Jahn-Teller effect of an orbital quintet in icosahedral symmetry
