International Symposium on the Jahn-Teller Effects: Novel Aspects in Orbital Physics and Vibronic Dynamics of Molecules and Crystals | (smr 1768)

Contribution ID: 29 Type: not specified

Calculation of vibronic coupling constant and vibronic coupling density analysis

Wednesday, 30 August 2006 15:30 (0:30)

Content

Summary

Primary author(s): K. TOKUNAGA (Dept. of Molecular Engineering, Graduate School of Engineering, Kyoto Univ., Japan)

Presenter(s): K. TOKUNAGA (Dept. of Molecular Engineering, Graduate School of Engineering, Kyoto Univ., Japan)

Session Classification: Calculation of vibronic coupling constant and vibronic coupling density analysis
