

International Symposium on the Jahn-Teller Effects: Novel Aspects in  
Orbital Physics and Vibronic Dynamics of Molecules and Crystals | (smr  
1768)

Contribution ID : 41

Type : not specified

## Superstructures and spin gaps caused by orbital ordering

*Thursday, 31 August 2006 16:20 (0:40)*

### Content

### Summary

**Primary author(s) :** D. I. KHOMSKII (II Physikalisches Inst., Univ. zu Koeln, Germany)

**Presenter(s) :** D. I. KHOMSKII (II Physikalisches Inst., Univ. zu Koeln, Germany)

**Session Classification :** Superstructures and spin gaps caused by orbital ordering
