

**Small scale processes in air-sea interaction of  
paramount importance for large scale aspects as  
climate (& variability) & global overturning  
circulation (remote sensing)**

*Wednesday, 2 May 2007 11:30 (1:00)*

**Content**

**Summary**

**Primary author(s) :** F. OCAMPO TORRES (1) (Earth's Science Division, Cicese, Mexico)

**Presenter(s) :** F. OCAMPO TORRES (1) (Earth's Science Division, Cicese, Mexico)

**Session Classification :** Small scale processes in air-sea interaction of paramount importance for large scale aspects as climate (& variability) & global overturning circulation (remote sensing)
