

**ICTP Advanced School on Oceanography (ASO): "World Climate and Overturning Circulation in Oceans and Mediterranean Seas" | (smr 1837)**

Contribution ID : 0

Type : **not specified**

**Ocean heat transport, ocean circulation and water mass properties (with particular emphasis on the Atlantic & Indian oceans, & the Mediterranean Sea)**

*Monday, 30 April 2007 11:30 (1:00)*

**Content**

**Summary**

**Primary author(s) :** HARRY BRYDEN (1) (School of Ocean & Earth Science, Univ. Southampton, UK)

**Presenter(s) :** HARRY BRYDEN (1) (School of Ocean & Earth Science, Univ. Southampton, UK)

**Session Classification :** Ocean heat transport, ocean circulation and water mass properties (with particular emphasis on the Atlantic & Indian oceans, & the Mediterranean Sea)
