

# General properties of the Rayleigh-Taylor instability in different plasma configurations: the plasma foil model.

*Monday, 6 August 2007 09:00 (1:00)*

## Content

## Summary

**Primary author(s)** : F. PEGORARO (Univ. di Pisa, Italy)

**Presenter(s)** : F. PEGORARO (Univ. di Pisa, Italy)

**Session Classification** : General properties of the Rayleigh-Taylor instability in different plasma configurations: the plasma foil model.
