

Summer School on Novel Quantum Phases and Non-equilibrium
Phenomena in Cold Atomic Gases | (smr 1859)

Contribution ID : 19

Type : **not specified**

Thermalization and its mechanism for generic isolated quantum systems

Thursday, 30 August 2007 11:30 (1:00)

Content

Summary

Primary author(s) : M. RIGOL (University of California at Santa Cruz)

Presenter(s) : M. RIGOL (University of California at Santa Cruz)

Session Classification : Thermalization and its mechanism for generic isolated quantum systems
