

Summer School on Novel Quantum Phases and Non-equilibrium
Phenomena in Cold Atomic Gases | (smr 1859)

Contribution ID : 5

Type : **not specified**

Atom-atom correlation measurements: a fundamental tool for quantum atom optics

Tuesday, 28 August 2007 09:00 (1:00)

Content

Summary

Primary author(s) : A. ASPECT (University of Paris XI - Sud)

Presenter(s) : A. ASPECT (University of Paris XI - Sud)

Session Classification : Atom-atom correlation measurements: a fundamental tool for quantum atom optics
