Conference on Knots and other Entanglements in Biopolymers: Topological and Geometrical Aspects of DNA, RNA and Protein Structures | (smr 1963)

Contribution ID: 9 Type: not specified

## An Electrostatic/Geometric Mechanism for Compact Chromatin Stabilization Revealed by Mesoscale Modeling

Tuesday, 16 September 2008 09:00 (0:45)

Content

Summary

Primary author(s): TAMAR SCHLICK (New York University)

Presenter(s): TAMAR SCHLICK (New York University)

**Session Classification**: An Electrostatic/Geometric Mechanism for Compact Chromatin Stabilization

Revealed by Mesoscale Modeling
