

Monte Carlo simulation on the conformational statistics of worm-like DNA chains: effect of DNA juxtaposition and topoisomerase action

Wednesday, 17 September 2008 09:00 (0:45)

Content

Summary

Primary author(s) : ZHIRONG LIU (Peking University)

Presenter(s) : ZHIRONG LIU (Peking University)

Session Classification : Monte Carlo simulation on the conformational statistics of worm-like DNA chains: effect of DNA juxtaposition and topoisomerase action
