

Efficient calculation of scattering amplitudes in supersymmetric gauge and gravity theories - Lecture I

Monday, 23 March 2009 14:30 (1:00)

Content

Summary

Primary author(s) : R.S. ROIBAN (Pennsylvania State University, U.S.A.)

Presenter(s) : R.S. ROIBAN (Pennsylvania State University, U.S.A.)

Session Classification : Efficient calculation of scattering amplitudes in supersymmetric gauge and gravity theories - Lecture I
