

Group 1: Ibicui basin (Brazil). Simulation using CHyM and HMS for the same time period.
Comparison of the two results.

Ambrosino, Tarnavsky, Dimitrov, Uriburu

Group 2: Simulation of the 1999 September flood in white Volta (Ghana) using CHyM

Lamptey, Kizza, Eghan, Forkuor, Pierre

Group 3 : Optimization of CHyM model for Benin Basin

Robel, Lucie, Amidu, Fasanwon

Group 4: Simulation for 1990 winter (and summer) runoff for river Magdalena in
Colombia using CHyM model

Guettler, Liyanaarachchi, Stephenson, Kasiapillai, Xu Hongmei, lineitseva

Group 5: Comparison of HD model output to observed record
for 1989 for Upper Indus sub-basin

Forsythe, Akhtar, Masood

Group 6: Comparison of CHyM and MPI-HD models in prediction of hydrological discharge
of the Gange river.

Bozkurt, Shahid, Otto

Group 7: Application of HD model to simulate Mekong river basin flood flow in 1989

Nguyen, Cong
