

# Mediating role of Alkaline earth metal ions in electrostatics of DNA: The long-range effects of solvent dielectric saturation

*Tuesday, 2 June 2009 09:30 (0:15)*

## Content

## Summary

**Primary author(s)** : SERGEI GAVRYUSHOV (RAS, Engelhardt Institute of Molecular Biology, Moscow, Russia)

**Presenter(s)** : SERGEI GAVRYUSHOV (RAS, Engelhardt Institute of Molecular Biology, Moscow, Russia)

**Session Classification** : Mediating role of Alkaline earth metal ions in electrostatics of DNA: The long-range effects of solvent dielectric saturation
