

# Nonlinear gyrokinetics: A powerful tool for the description of microturbulence in magnetized plasmas

*Wednesday, 29 July 2009 09:15 (0:50)*

## Content

## Summary

**Primary author(s) :** JOHN KROMMES (Princeton University, USA)

**Presenter(s) :** JOHN KROMMES (Princeton University, USA)

**Session Classification :** Nonlinear gyrokinetics: A powerful tool for the description of microturbulence in magnetized plasmas
