

Molecular dynamic simulations of hydrodynamic instabilities of shocked interface in planar and cylindrical geometries

Monday, 27 July 2009 11:00 (0:25)

Content

Summary

Primary author(s) : KATSUNOBU NISHIHARA (Institute of Laser Engineering, Japan)

Presenter(s) : KATSUNOBU NISHIHARA (Institute of Laser Engineering, Japan)

Session Classification : Molecular dynamic simulations of hydrodynamic instabilities of shocked interface in planar and cylindrical geometries
