

Reactive dynamics of materials and interfaces at nonequilibrium conditions using first-principles based force fields

Friday, 31 July 2009 14:25 (0:45)

Content

Summary

Primary author(s) : WILLIAM GODDARD III (California Institute of Technology, Pasadena, USA)

Presenter(s) : WILLIAM GODDARD III (California Institute of Technology, Pasadena, USA)

Session Classification : Reactive dynamics of materials and interfaces at nonequilibrium conditions using first-principles based force fields
