

# The evolution of hydrogen bonds in molecular materials under changing external conditions by neutron diffraction and complementary methods

*Monday, 26 October 2009 17:10 (0:40)*

## Content

## Summary

**Primary author(s) :** CHICK WILSON (University of Glasgow, U.K.)

**Presenter(s) :** CHICK WILSON (University of Glasgow, U.K.)

**Session Classification :** The evolution of hydrogen bonds in molecular materials under changing external conditions by neutron diffraction and complementary methods
