

Joint ICTP-IAEA Advanced Workshop on Multi-Scale Modelling for
Characterization and Basic Understanding of Radiation Damage
Mechanisms in Materials | (smr 2137)

Contribution ID : 31

Type : **not specified**

Theoretical modeling of plastic deformation in materials under heavy ion, light ion and fast neutron irradiations

Monday, 19 April 2010 09:00 (1:00)

Content

Summary

Primary author(s) : A. RYAZANOV (Russian Research Centre “Kurchatov Institute”, Moscow, Russian Federation)

Presenter(s) : A. RYAZANOV (Russian Research Centre “Kurchatov Institute”, Moscow, Russian Federation)

Session Classification : Theoretical modeling of plastic deformation in materials under heavy ion, light ion and fast neutron irradiations
