

Joint ICTP-IAEA Advanced Workshop on Multi-Scale Modelling for
Characterization and Basic Understanding of Radiation Damage
Mechanisms in Materials | (smr 2137)

Contribution ID : 4

Type : **not specified**

Fundamentals of radiation damage: mechanisms at the atomic, nano- and microscopic levels

Monday, 12 April 2010 14:00 (1:00)

Content

Summary

Primary author(s) : L. MALERBA (Nuclear Research Centre of Belgium, Mol, Belgium)

Presenter(s) : L. MALERBA (Nuclear Research Centre of Belgium, Mol, Belgium)

Session Classification : Fundamentals of radiation damage: mechanisms at the atomic, nano- and microscopic levels
