

Joint ICTP-IAEA Advanced Workshop on Multi-Scale Modelling for
Characterization and Basic Understanding of Radiation Damage
Mechanisms in Materials | (smr 2137)

Contribution ID : 44

Type : not specified

**SANS studies of microstructural radiation damage
evolution in model alloys and technical steels for
nuclear applications/part 2**

Wednesday, 21 April 2010 11:30 (1:00)

Content

Summary

Primary author(s) : R. COPPOLA (ENEA-Casaccia, Rome, Italy)

Presenter(s) : R. COPPOLA (ENEA-Casaccia, Rome, Italy)

Session Classification : SANS studies of microstructural radiation damage evolution in model alloys and technical steels for nuclear applications/part 2
