Joint ICTP-IAEA Workshop on Vulnerability of Energy Systems to Climate Change and Extreme Events | (smr 2138)

Friday 23 April 2010

Scientific uncertainties about the changes in the nature, magnitude and frequency of extreme events triggered by anthropogenic climate change, their formulation for use in impact and risk assessments for energy system - Adriatico Guest House Giambiagi Lecture Hall (09:30-10:00)

time	title	presenter
09:30	Scientific uncertainties about the changes in the nature, magnitude and frequency of extreme events triggered by anthropogenic climate change, their formulation for use in impact and risk assessments for energy system	TAHIRA MUNIR
