

Chirality violating condensates in QCD and their connection with zero mode solutions of quark Dirac equations

Friday, 28 May 2010 16:00 (0:20)

Content

Summary

Primary author(s) : BORIS L. IOFFE (ITEP Institute of Theoretical and Experimental Physics (Russian Federation))

Presenter(s) : BORIS L. IOFFE (ITEP Institute of Theoretical and Experimental Physics (Russian Federation))

Session Classification : Chirality violating condensates in QCD and their connection with zero mode solutions of quark Dirac equations
