

**Workshop on Principles and Design of Strongly Correlated Electronic
Systems | (smr 2157)**

Contribution ID : **24**

Type : **not specified**

Multiscale quantum criticality: Nematic instability in metals

Monday, 9 August 2010 10:00 (1:00)

Content

Summary

Primary author(s) : M. GARST (Universitaet zu Koeln, Germany)

Presenter(s) : M. GARST (Universitaet zu Koeln, Germany)

Session Classification : Multiscale quantum criticality: Nematic instability in metals
