

Workshop on Nano-Opto-Electro-Mechanical Systems Approaching the
Quantum Regime | (smr 2164)

Contribution ID : 7

Type : **not specified**

Voltage-sustained self-oscillation of a nanomechanical electron shuttle

Monday, 6 September 2010 14:00 (0:40)

Content

Summary

Primary author(s) : EVA WEIG (LMU, Munich, Germany)

Presenter(s) : EVA WEIG (LMU, Munich, Germany)

Session Classification : Voltage-sustained self-oscillation of a nanomechanical electron shuttle
