

Workshop on Advanced Oxide Interfaces (9-12 May), followed by:
ADGLASS General Meeting (13 May) | (smr 2236)

Contribution ID : 9

Type : **not specified**

Generation of atomistic models and development of classical potentials for interfaces between technical materials and protein-containing solutions

Wednesday, 11 May 2011 11:00 (1:30)

Content

Summary

Primary author(s) : LUCIO COLOMBI-CIACCHI (University of Bremen, Germany)

Presenter(s) : LUCIO COLOMBI-CIACCHI (University of Bremen, Germany)

Session Classification : Generation of atomistic models and development of classical potentials for interfaces between technical materials and protein-containing solutions
