

Compressibility and spin susceptibility in the evolution from BCS to BEC superfluids

Thursday, 9 June 2011 10:05 (0:40)

Content

Summary

Primary author(s) : C.A.R. SA DE MELO (Georgia Institute of Technology, United States of America)

Presenter(s) : C.A.R. SA DE MELO (Georgia Institute of Technology, United States of America)

Session Classification : Compressibility and spin susceptibility in the evolution from BCS to BEC superfluids
