Majorana fermions, Non-abelian statistics and topological quantum computation in semiconductor/superconductor heterostructures

Monday, 11 July 2011 17:30 (1:00)

Content

Summary

Primary author(s): JAY SAU (Department of Physics, University of Maryland, College Park, USA)

Presenter(s): JAY SAU (Department of Physics, University of Maryland, College Park, USA)

Session Classification: Majorana fermions, Non-abelian statistics and topological quantum

computation in semiconductor/superconductor heterostructures
