

# Field theories of pure and doped 2D quantum antiferromagnets and high-precision tests based on quantum Monte Carlo

*Tuesday, 26 July 2011 09:30 (0:50)*

## Content

## Summary

**Primary author(s) :** U. WIESE (University of Bern, Switzerland)

**Presenter(s) :** U. WIESE (University of Bern, Switzerland)

**Session Classification :** Field theories of pure and doped 2D quantum antiferromagnets and high-precision tests based on quantum Monte Carlo
