

DMRG study of the novel quantum phases for frustrated spin and boson systems

Thursday, 28 July 2011 10:50 (0:50)

Content

Summary

Primary author(s) : D. SHENG (California State University, U.S.A.)

Presenter(s) : D. SHENG (California State University, U.S.A.)

Session Classification : DMRG study of the novel quantum phases for frustrated spin and boson systems
