"2nd Conference on Systems Biology and New Sequencing Techniques" (2-4 November), preceded by Introductory Lectures on "Quantitative Approaches to Biological Problems" (31 October - 1 November) | (smr 2255)

Contribution ID: 24 Type: not specified

Using next generation sequencing to unravel the forces shaping the genetic landscape in populations of S. cerevosoae

Friday, 4 November 2011 10:15 (0:45)

Content

Summary

Primary author(s): D. CAVALIERI (University of Florence, Italy)

Presenter(s): D. CAVALIERI (University of Florence, Italy)

Session Classification: Using next generation sequencing to unravel the forces shaping the genetic landscape in populations of S. cerevosoae
