

Effect of relative humidity when manipulating gold nanoparticles on flat substrates using dynamic atomic force microscopy

Tuesday, 13 September 2011 11:30 (0:20)

Content

Summary

Primary author(s) : KARINE MOUGIN (Institut fuer Mikrostrukturtechnik, Universitaet Karlsruhe (TH), Eggenstein-Leopoldshafen, Germany)

Presenter(s) : KARINE MOUGIN (Institut fuer Mikrostrukturtechnik, Universitaet Karlsruhe (TH), Eggenstein-Leopoldshafen, Germany)

Session Classification : Effect of relative humidity when manipulating gold nanoparticles on flat substrates using dynamic atomic force microscopy
