

Joint ICTP-IAEA Workshop on Non-adiabatic Dynamics and Radiation
Damage in Nuclear Materials | (smr 2260)

Contribution ID : 10

Type : **not specified**

Stopping power of projectiles shooting through materials: Predicting the rate of electron heating in radiation damage events

Tuesday, 15 November 2011 15:00 (1:00)

Content

Summary

Primary author(s) : E. ARTACHO (Univ. Cambridge, UK)

Presenter(s) : E. ARTACHO (Univ. Cambridge, UK)

Session Classification : Stopping power of projectiles shooting through materials: Predicting the rate of electron heating in radiation damage events
