

A reactive global optimization approach to the catalytic reduction of CO₂ by Ni supported nanoclusters

Tuesday, 18 October 2011 17:30 (0:30)

Content

Summary

Primary author(s) : ALESSANDRO FORTUNELLI (CNR IPCF, Istituto per i Processi Chimico Fisici, Pisa, Italy)

Presenter(s) : ALESSANDRO FORTUNELLI (CNR IPCF, Istituto per i Processi Chimico Fisici, Pisa, Italy)

Session Classification : A reactive global optimization approach to the catalytic reduction of CO₂ by Ni supported nanoclusters
