

# Quantum chemical characterization of homogeneous catalytic processes for water splitting and Co<sub>2</sub> reduction

*Wednesday, 19 October 2011 08:30 (1:00)*

## Content

## Summary

**Primary author(s)** : CHRISTOPHER CRAMER (Chemistry & Supercomputer Inst., Univ. Minnesota, Minneapolis, U.S.A.)

**Presenter(s)** : CHRISTOPHER CRAMER (Chemistry & Supercomputer Inst., Univ. Minnesota, Minneapolis, U.S.A.)

**Session Classification** : Quantum chemical characterization of homogeneous catalytic processes for water splitting and Co<sub>2</sub> reduction
