

## **Polymer-based organic solar cells: Tuning of active layer nanomorphology and enhancement of photovoltaic performance using alkoxy side groups**

*Thursday, 20 October 2011 17:30 (0:30)*

### **Content**

### **Summary**

**Primary author(s) :** DANIEL A.M. EGBE (Linz Inst. for Organic Solar Cells & Coordination Off. ANSOLE, Johannes Kepler Univ., Linz, Austria)

**Presenter(s) :** DANIEL A.M. EGBE (Linz Inst. for Organic Solar Cells & Coordination Off. ANSOLE, Johannes Kepler Univ., Linz, Austria)

**Session Classification :** Polymer-based organic solar cells: Tuning of active layer nanomorphology and enhancement of photovoltaic performance using alkoxy side groups
