

Photocatalytic H₂ and added-value byproducts: The role of metal oxide systems in their synthesis from liquid oxygenates

Monday, 17 October 2011 11:30 (1:00)

Content

Summary

Primary author(s) : PAOLO FORNASIERO (Dept. of Chemical Sciences, Univ. of Trieste, Italy)

Presenter(s) : PAOLO FORNASIERO (Dept. of Chemical Sciences, Univ. of Trieste, Italy)

Session Classification : Photocatalytic H₂ and added-value byproducts: The role of metal oxide systems in their synthesis from liquid oxygenates
