## Home

This is the homepage of the Groupe 10. Our aim is to find optimum setup of the RegCM model over European domain.

### Messages

**[Coordinates for inner domains](#)** Dear Group 10!Here are the coordinates for some European inner domains:\* Europe - CORDEX, inner domain (north+south) (lon=-15,lon=35,lat=30,lat=70)\* Europe - CORDEX, north (lon ...  
Posted 5 hours ago by Csaba Torma

**[CLM up :\)](#)** Dear all,A new run (EXP004) using CLM is ready and seems errors in coupling with the RegCM are fixed. I'm preparing monthly means and they will be ready ...  
Posted 12 hours ago by Ivan Güttler

**[CLM down :\(](#)** Hi everyone,Unfortunately, we still don't have operational version of CLM running. We should meet monday early and decide which experiments to continue.Enjoy weekend!Ivan  
Posted May 11, 2012 10:41 PM by Ivan Güttler

**[Some help](#)** Ciao a Tutti!Some help in setting the right coordinates in visualizing the bias fields:1., You can find the output of our simulations: /home/netapp/clima-scratch/iguette/GROUP ...  
Posted May 11, 2012 7:51 AM by Csaba Torma

**[First results ready, new simulations being run...](#)** Hi everyone!You can check our GROUP\_PROJECT directory with the first data from the first two experiments.Next two experiments using CLM are being run at the moment!Please ...
